

CLASS SIZE

West Clermont Local School District

Your thoughts on redistricting

Parent/Student Ratio More students per class take away from learning opportunities. *Your thoughts on redistricting*

4.4 ★★★★★ (37)

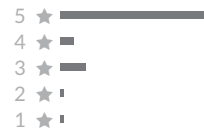

Maximize the opportunity to learn Smaller sized classrooms help teachers better prepare for their students, encourage experiential learning, and maintain adequate classroom management. *Your thoughts on redistricting*

4.4 ★★★★★ (35)

Class size Too big of classes cannot achieve goals *Your thoughts on redistricting*

4.3 ★★★★★ (38)

class sizes should not be overwhelmed due to increased enrollment. Smaller teacher to student ratios are better for learning. *Your thoughts on redistricting*

4.3 ★★★★★ (36)

Number of students attending each school Classroom size to allow attention to each student *Your thoughts on redistricting*

4.3 ★★★★★ (35)

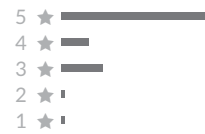

Class room size Educator to student ratio is important to remain on the smaller side to allow continued attention to those students who need a bit more one on one *Your thoughts on redistricting*

4.2 ★★★★★ (51)

Student teacher ratio The class sizes are already too big. It's worse when we can't get subs and kids are distributed to other classes in their grade for the day. *Your thoughts on redistricting*

4.2 ★★★★★ (48)

Class size Making sure there is a good teacher to student ratio *Your thoughts on redistricting*

4.2 ★★★★★ (39)

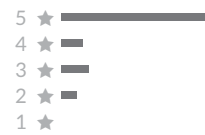

Student to teacher ratio I want my child to have a more personalized experience *Your thoughts on redistricting*

4.2 ★★★★★ (39)

Class Sizes Keeping a low student to teacher ratio. Everyone benefits, teachers and students! *Your thoughts on redistricting*

4.2 ★★★★★ (37)

Class size Teacher/student ratio should be sufficient *Your thoughts on redistricting*

4.2 ★★★★★ (35)

Student to teacher ratio Making sure the kids get that individual attention that is needed. Less stress on the teacher as well with too big of a class. *Your thoughts on redistricting*

4.1 ★★★★★ (51)

Classroom size equity. I would hate to see classroom sizes at one school be considerably larger than at other schools. Students learn better in smaller learning communities. Having one building with 28/class vs. another that has 21/class is not good for anyone. *Your thoughts on redistricting*

4.1 ★★★★★ (50)

No overcrowded classrooms Enough resources for each child *Your thoughts on redistricting*

4.1 ★★★★★ (49)

Number of students, class size, number of classrooms and teachers The more students that attend brings more students into each class. Larger student to teacher ratios have a neg impact on student learning *Your thoughts on redistricting*

4.1 ★★★★★ (49)

Student:Teacher Ratios Safety and education. Ratios matter. Special needs may require special exceptions to redistribution of students. Our teachers need smaller classes. *Your thoughts on redistricting*

4.1 ★★★★★ (49)

The number of kids per school. I like the classrooms having less kids so the kid to teacher ratio is not out of control. *Your thoughts on redistricting*

4.1 ★★★★★ (49)

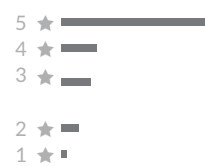

The student to teacher ratio to stay as low as possible. I think that is what's most important so the children get as much attention as possible. When class sizes are too big it can be harder to learn. *Your thoughts on redistricting*

4.1 ★★★★★ (49)

Teacher to student ratio It's important that each student be attended to, and not overwhelm teachers *Your thoughts on redistricting*

4.1 ★★★★★ (39)

Class Size and Teacher to Student Ratio-too many kids per teacher already. This makes it easier for kids to fall through the cracks. They can't get extra help if needed and get no personal attention. Its too much for teachers *Your thoughts on redistricting*

4.1 ★★★★★ (38)

Overcrowding It's important to me that my children get the proper attention when needed. *Your thoughts on redistricting*

4.1 ★★★★★ (37 👤)

Class size is important *Your thoughts on redistricting*

4.1 ★★★★★ (35 👤)

Overcrowding in the classrooms Too many children in a classroom is counter to the ability to learn. *Your thoughts on redistricting*

4.1 ★★★★★ (35 👤)

Class room size Coming from the west coast the size of our classrooms do make a difference in the way our children respond to learn. *Your thoughts on redistricting*

4.0 ★★★★★ (52 👤)

The students to teacher ratio should be of the utmost importance. Kids can get lost in a big setting with too many kids to teachers/aides. *Your thoughts on redistricting*

4.0 ★★★★★ (51 👤)

Class Size Smaller Classes gives more one on one attention to students *Your thoughts on redistricting*

4.0 ★★★★★ (50 👤)

Class size Smaller class sizes result in better productivity, focus, teachers are better able to address individual student needs and feel less overwhelmed. *Your thoughts on redistricting*

4.0 ★★★★★ (50 👤)

Class sizes need to be small. It's hard for kids to learn when there too many kids in a class. I think anything over 25 is too big. *Your thoughts on redistricting*

4.0 ★★★★★ (49 👤)

Size of schools and size of classrooms.

Children learn better with a smaller teacher-to-child ratio. *Your thoughts on redistricting*

4.0 ★★★★★ (48)

I like that the school is small enough that you know the staff and the kids in your child's class. It's critical to my child's education that I have a relationship with those teaching him.

Your thoughts on redistricting

4.0 ★★★★★ (39)

Teacher-student ratio It's important to consider the number of students that could potentially be added. *Your thoughts on redistricting*

4.0 ★★★★★ (39)

Class size Larger teacher student ratio leads to inattentiveness to learning and possible bullying. *Your thoughts on redistricting*

4.0 ★★★★★ (38)

Consistency across the district There should be consistency as far as opportunities and class sizes. *Your thoughts on redistricting*

4.0 ★★★★★ (38)

Student to teacher ratios Because one teacher can only do so much with 25+ students. There is so much that happens and that gets missed because there are more students. *Your thoughts on redistricting*

4.0 ★★★★★ (38)

Smaller student to teacher ratios. *Your thoughts on redistricting*

4.0 ★★★★★ (37)

The size and number of classrooms available in a particular school Classroom overcrowding should be avoided as much as possible. Smaller classes make a teacher's job easier. *Your thoughts on redistricting*

4.0 ★★★★★ (37)

Class sizes. Teacher vs Student ratio. Too many students can get looked over or not get the attention they need with too many students in a class. *Your thoughts on redistricting*

4.0 ★★★★★ (35)

Class size Each class should be manageable for the teachers and size each student feels included *Your thoughts on redistricting*

4.0 ★★★★★ (30)

Student to teacher ratio should not change. Larger class sizes create more challenges with targeted learning. *Your thoughts on redistricting*

3.9 ★★★★★ (50)

Class size I want to make sure children can get one on one attention and parents can make it to events without congestion. *Your thoughts on redistricting*

3.9 ★★★★★ (49)

The teacher to student ratio. Hopefully, this will keep the numbers similar in all schools. *Your thoughts on redistricting*

3.9 ★★★★★ (48)

It doesn't make sense to have one school over crowded and using their specials rooms as classrooms and other buildings have empty, unused classrooms. Specials teachers have no home and are forced to cart their materials from one classroom to another. *Your thoughts on redistricting*

3.9 ★★★★★ (46)

The class sizes are huge in some schools and small in other schools. It is important to have equal and smaller class sizes for each grade level. *Your thoughts on redistricting*

3.9 ★★★★★ (39)

Classroom Size I do believe classroom size needs to be considered. The average class size at Amelia is approximately (25) kids, where as Holly Hill is around (15). *Your thoughts on redistricting*

3.9 ★★★★★ (38)

The number of students in k-3 classrooms need to be smaller across the district. Early intervention is key and keeping those numbers low is crucial. Research shows that smaller class sizes improve learning. *Your thoughts on redistricting*

3.9 ★★★★★ (38)

Highlight the positives behind the change (smaller, more balanced class sizes, etc.) People want to know what's in it for them *Your thoughts on redistricting*

3.9 ★★★★★ (36)

Class size stop kids moving in after class size is set. My sons class started at 25 but by Thanksgiving last year his class had 30! Let there be a hard limit! *Your thoughts on redistricting*

3.9 ★★★★★ (33)

Class sizes bus routes and times *Your thoughts on redistricting*

3.9 ★★★★★ (33)

I think it's important to consider how many students will be in a classroom and if each building has appropriate space for specials teachers. *Your thoughts on redistricting*

3.9 ★★★★★ (27)

Keeping class sizes small Smaller class sizes help teachers and students perform better academically. *Your thoughts on redistricting*

3.9 ★★★★★ (27)

Teacher/ student ratio. Our teachers need to be able to teach/help their students. With a smaller class size that can be achieved. *Your thoughts on redistricting*

3.9 ★★★★★ (9)

What will the classroom numbers be per teacher? If numbers do not go down in the classrooms there really is no point in all of this. *Your thoughts on redistricting*

3.8 ★★★★★ (50)

Safety has to be the first priority. Keeping class sizes manageable for the staff is very important. Not just in the event of an emergency but also to help keep a handle on bullying *Your thoughts on redistricting*

3.8 ★★★★★ (47)

Small class sizes *Your thoughts on redistricting*

3.8 ★★★★★ (47)

Keep class size equal! My son last year was in a class of 30. A friend had a child at Brantner same grade and only had 18 in their class. How is this fair? *Your thoughts on redistricting*

3.8 ★★★★★ (34)

Thank You WC for partnering with the OFCC! following the guidelines to provide our children with smaller class sizes and upgraded facilities is smart students would not get these luxuries otherwise. Parents want specials and additional schools? help get a levy put on and passed! Educate yourself! *Your thoughts on redistricting*

3.8 ★★★★★ (33)

The ratio of student vs staff..not just student vs. Teaching staff. If you have a school with a larger attendance number, you are going to need more support staff than a school with a smaller attendance number. *Your thoughts on redistricting*

3.7 ★★★★★ (47)

Overall classroom size By widening the boundaries, it would possibly hurt the teaching and cause overcrowding of the rooms. *Your thoughts on redistricting*

3.7 ★★★★★ (38)

Class sizes I feel like class sizes are only going to grow, I know there are new elem. schools being built but that might be short term fix as the district grows. *Your thoughts on redistricting*

3.7 ★★★★★ (35)

Class size It's important that a small class ratio is optimized for student learning. *Your thoughts on redistricting*

3.7 ★★★★★ (5)

I think class size is the most important factor in all of this. If class sizes are reasonable, the benefits will outweigh the inconvenience of moving schools. *Your thoughts on redistricting*

3.6 ★★★★★ (50)

Some schools are overcrowded Even out student to teacher ratios *Your thoughts on redistricting*

3.6 ★★★★★ (49)

Student teacher ratios What are the existing student-teacher ratios in the schools before accepting other students? *Your thoughts on redistricting*

3.6 ★★★★★ (49)

Increasing number of students in a specific school Is the facility able to accommodate?
Will this negatively change the teacher to student ration *Your thoughts on redistricting*

3.6 ★★★★★ (46)

They struggle to get subs already. When they dont have subs, they just combine classes which gives each teacher 40+ kids by themselves. This is NOT okay. *Your thoughts on redistricting*

3.6 ★★★★★ (36)

Number of students Best way to minimize class sizes *Your thoughts on redistricting*

3.5 ★★★★★ (50)

Schools are overcrowded *Your thoughts on redistricting*

3.5 ★★★★★ (39)

School size, class size, demographics of each area To meet kids needs we need to be sure not to overfill schools to keep them safe and we need to make sure the financial stability for the school *Your thoughts on redistricting*

3.5 ★★★★★ (26)

What will this look like for my son, the teachers/staff ratio *Your thoughts on redistricting*

3.4 ★★★★★ (31)

Size of school. Amount of faculty. *Your thoughts on redistricting*

3.3 ★★★★★ (36)

Class size Bussing *Your thoughts on redistricting*

3.3 ★★★★★ (34)

They need attention from the teacher. If they don't get the attention they need how can they be helped. *Your thoughts on redistricting*

3.2 ★★★★★ (38)

I think there should be more than on teacher in the class room at all times there. I think it would be best from grades K-5 for the kids need the help So kids won't get push to the side that need the help and for the teachers who are teaching the kids for the first time can get can get help for *Your thoughts on redistricting*

3.2 ★★★★★ (35)

Bullying Larger number of kids per class always will include the increase of chance of bullying and teasing due to less faculty ratio to watch over them all *Your thoughts on redistricting*

3.1 ★★★★★ (50)
